Hello, I'm
Amta Hafeez
Software Engineering Student & Mobile App Developer
Passionate about building responsive cross-platform mobile apps, secure software architectures, hardware-software integration, and intelligent digital experiences.
Get in Touch

About Me
I am a 5th-semester Software Engineering student at COMSATS University Islamabad, Sahiwal Campus (Registration ID: FA24-BSE-079). My academic and practical work spans across cross-platform mobile application development, software design and architecture, information security, and automated IoT systems.
I enjoy translating complex functional requirements into clean, scalable user interfaces and secure backend logic. I am deeply focused on writing clean code and delivering seamless digital experiences.
Technical Skills
Flutter & Dart
Mobile Application Development
Information Security
Software Design & Architecture
Python Programming
Firebase & Cloud Firestore
HTML5, CSS3 & Responsive Web
Git & GitHub Version Control

HTML5, CSS3 & Responsive Web
Git & GitHub Version Control
Featured Projects
Smart Automated Roof System (Hardware)
A hardware-based smart automated roof system prototype driven by an Arduino Uno and rain detection logic, paired with a Streamlit monitoring dashboard.
Cisco Smart Home IoT System (Software)
A software-based simulated smart home network topology and IoT automation system engineered, connected, and tested using Cisco Packet Tracer.
AI Maze Solver (AI Project)
An intelligent algorithmic maze-solving application developed in Python demonstrating graph search, pathfinding algorithms, and
Python, AI Algorithms, Pathfinding

Education
Bachelor of Science in Software Engineering
5th Semester | Registration ID: FA24-BSE-079
Contact Me
I am always open to discussing new projects, software engineering collaborations, or career opportunities.
